sales@itemhome.co.uk or call 0(044) 1782 621225 for postage details.

Susurrus

TERMS AND CONDITIONS:

Item2 Ltd's liability is limited to supply only. All mechanical and electrical connection must be undertaken by an independent qualified professional. Structural ceiling fixings must be tested before delivery and should each be rated to carry treble the load of the piece supplied. If you are unsure of the weight of your chandelier, please contact item on 0044 1782 621225.

Maintenance: Physical inspection of the armature, electrical wiring, bell strands and all load bearing components should be undertaken every six months.

Only the supplied electrical flex, mechanical fixings and lampholders should be fitted. The bulb must be positioned in the centre of ceramic shade and not permitted to touch it any point.

Susurrus may be cleaned using a damp lint-free cloth or feather duster. Stubborn stains are best removed by light abrasion with aluminium oxide sandpaper. Take care not to overstress or twist the spokes during cleaning as this could compromise the integrity of the fixing.

The standard version of Susurrus is not designed to be hung in a damp or exterior environment. If you wish to deploy the lit or unlit version of Susurrus in a bathroom (Zones I, II or III) or outside, please ensure that the correct, appropriately rated, version is ordered.

Item 2 Ltd cannot be held responsible for injury or damages incurred as a result of incorrect installation, inappropriate treatment, or neglected maintenance.

The logo for 'item' features the word in a lowercase, serif font. A small square is positioned above the letter 'i'.
